In other news:

Crestwood has a new "Secure" page on the church website (<https://crestwoodchristian.net>)!

Why? There are so many different things that we don't want to have in the open side of the website. Items such as reimbursement forms, church directory, etc. Solution, a secure area you can always quickly reach from your PC, laptop, and smartphones. How do I find it? Go to the "Info" tab at the top of the website and select the "Documents" tab. Now you can put in the secure password to access those needed files.

How do I get the password? That's easy, contact Pastor Mike and he will be happy to get you going.
